

Job title	Web Developer
Reports to	

Job description

As a Web Developer, you will be responsible for using your knowledge of programming languages to code websites and web applications. You will create code for the front and back end of a website and run tests to ensure that the coding is correct.

Duties and responsibilities

- Build and optimize a secure web page for evolving business needs.
- Provide continued support for one or more web properties
- Maintain communication with team members and managers concerning direction of the website.
- Perform routine site audits and ongoing maintenance.

Qualifications

The best candidates for this position will possess the following:

- A strong understanding of UI, cross-browser compatibility, general web functions and standards.
- Experience in planning and delivering software platforms used across multiple products and organizational units.
- Strong expertise and hands on experience with web applications and programming languages such as HTML, CSS, JavaScripts, JQuery and API's.
- Thorough understanding of security principles.

Requirements for this position are the following:

- 4-year degree in marketing, business, communication, or a related field.
- Previous work experience that demonstrates understanding and hands on experience in a variety of web applications.
- JavaScript, JQuery, HTML, HTML5, CSS, CSS3, Web Programming Skills, E-Commerce, Teamwork, Verbal Communication, cross-browser compatibility, Web User Interface Design (UI), Security Principles, Object-Oriented Design, Web Services (REST/SOAP), Multimedia Content Development, API's

AltaVista Strategic Partners is an equal opportunity employer and will consider all applications equally and without regard to race, sex, creed, religion, color, national origin, age, family history, or sexual orientation.
